

Bushcraft Illustrated: A Visual Guide : Canterbury, Dave By Dave Canterbury This new visual heavy format is also a great teaching aid if you have younger people in your home/workplace who you are trying to educate as it can be easier to follow through pictures than by text for some people but by all means every skill level can benefit from this book. I found the page on how to open and close a penknife a little patronizing/a waste of a page but otherwise it was an excellent read which introduced me to a lot of concepts I had never encountered. I recommend buying his normal size book series afterwards as they are much easier to understand when you have this book to look at as he explains something complex without any visual aid. Full of many projects and builds to make outdoors and nature part of our lives again 978-1507209028 Nobody can fault the author on his knowledge of bushcraft and survival but this book was a bit of a disappointment for me because it would seem after reading his previous books he is getting low on new ideas for new material. The Wall Street Journal From Dave Canterbury wilderness expert.

The well described/visualized information in this latest edition of Dave Canterbury's books is second to none great book with quality feel that could easily pass on any coffee table. Bushcraft Illustrated: A Visual Guide : Canterbury Dave This book is large hardback substantial beautifully illustrated I am a very happy customer it is better than I expected would buy books:

What they failed to realise was the purpose of this book and that it was to explain in further visual detail the previous lessons plus new lessons from Dave: 978-1507209028 His work is a lot easier to understand with visual aids, 978-1507209028 If you have an interest in bushcraft then you cant go wrong with this book. Beautifully illustrated and incredibly well written like all of Daves other books, I found much of the material is simply a repeat and some of it trivial space filling pages, His knowledge is vast but even the wisest of gurus eventually runs out of new things to say and teach, Firecraft: How to start a fire with a variety of materials. Priceless information at a low buying price. 978-1507209028 Güzel bir kitap.Son derece açıklayıcı.Satıcıya da bu arada teşekkür ederim. No nonsense instructional book. 978-1507209028 An appealing coffee table book. Cordage: Essential knot knowledge for outdoor survival. Trapping: Tips for catching small game. Plants: A catalog of edible plants to forage. 978-1507209028
