

TimThe Official Biography of Avicii By rapo88.org Where were his PR team advising him to not go on online forums to read comments about his weight and appearance at the height of global stardom? Celebs are strictly told to avoid social media and "never look down" because of miserable trolls. I took it on a weekend getaway and read the entire thing and it was a heartbreaking story about the effects mental health can take on a person even someone with millions of adoring fans. Doing 30 40 shows a month globally is absolutely nuts, Why weren't the brakes applied? This book opens up the reader to so many unanswered questions.
