

MC5, *Sonically Speaking: A Tale of Revolution and Rock 'n' Roll* by Callwood, Brett (2007) Paperback By rapo88.org **Book MC5, Sonically speaking skills** (Google MC5 Tartar Field 1970 that's why MC5 are still talked about!) 224 pages If you are searching for an in depth look into the life and music behind the MC5 that is exactly what you'll get with this brilliant masterpiece. **MC5, Sonically Speaking sombrero galaxy** 38 shipping MC5 *Sonically Speaking: A Tale of Revolution and Rock 'n' Roll* by Callwood Brett (2007) Paperback If you've never read anything about the band it's an ok place to start. **Book MC5, Sonically speaking rock** And despite the introduction pointing out that this revised version of the book seeks to address the lack of information about singer Rob Tyner he still seems to be barely present. **MC5, Sonically Speaking books** MC5's *Sonically Speaking* is chock full of great anecdotes facts tales and events encompassing MC5's ride to fame and the ride fame gives to one of the most talented bands to come out of Detroit. **Book MC5, Sonically speaking english** Band books are a dime a dozen so what I really liked as a lifelong fan of the scene is Brett's attention to detail and ability to not only extensively interview the founding members & scene participants but also paint a vivid picture around Detroit at that time. **MC5, Sonically Speaking booker** Granted I learned a lot about MC5 but I also learned a lot about the Stooges the White Panther movement Grande Ballroom Detroit and a lot about of the movers and shakers not so frequently mentioned. **Book MC5, Sonically speaking pdf** I recently went back and reviewed an assortment of books I have on the sixties and the counterculture and confirmed that Detroit is almost always forgotten or little than a footnote. **Book MC5, Sonically speaking english** It not only tells you the history of the band members and the band itself but also really shows you how random circumstance bad advice or the wrong choices can determine if a band will become a huge success or be all but forgotten,

### **Book MC5, Sonically speaking pdf**

Excellent 224 pages Good overview of the '5' and Detroit going on at that time. **Book MC5, Sonically speaking skills** To me not as enjoyable as Callwood's *Stooges* book just something about the style of writing: **Book MC5, Sonically speaking english** And if that isn't enough check out *A Journey Through the Michigan Underworld The Stooges* by Brett Callwood, **MC5, Sonically Speaking sombre** Trazy 224 pages Callwood interviewed the three remaining members of the band and those around them to put together a comprehensive and inspiring story from birth to now. **MC5, Sonically Speaking sombrero** But it's hardly the substantial detailed full history of the band that hardcore fans have been waiting for, **MC5, Sonically Speaking pdf filler** At just over 200 pages it's just too thin even for a band with only three official records. **MC5, Sonically Speaking book pdf** My biggest complaint is the lack of detail on the early years of the band: **MC5, Sonically Speaking epub air** The book essentially goes from brief sketches of the each members childhood straight to the signing of the band to Elektra and the recording of the first album. **MC5, Sonically Speaking ebooks** There is very little information about the years spent playing countless downriver halls and battle of band competitions, **EPub MC5, Sonically speaking free** With all due respect to the author who obviously loves the band and means well someone else should have written the book, **Sombre MC5, Sonically speaking rock** It just clearly comes from the perspective of someone who is too unfamiliar with the geography of metro Detroit and Ann Arbor to do it justice, **Sombre MC5, Sonically speaking rock** The environment the band came from is so essential to the Fives story as it is with any great biography, **Sombre MC5, Sonically speaking cd** The lack of detail and the nuances that are wrong just make it tough to get past: **Book MC5, Sonically speaking english** Beyond that there are numerous typos and much of it just seems to be referencing other writers work and old interviews. **Book MC5, Sonically speaking rock** The second half of the book that examines the post breakup work of band members is better: **MC5, Sonically Speaking epub pdf** There are new insights and details about Sonic's Rendezvous Band Gang War and the other projects but that's about as good as it gets: **MC5, Sonically Speaking book review** All told you really get a better detailed history of the band just by piecing together the pieces written by Ben Edmonds in

Mojo over the years. **MC5, Sonically Speaking epub** 224 pages This book rocks! I picked it up and couldn't put it down til the last page: **MC5, Sonically Speaking book review** The story of a hugely influential band told lovingly by a fan and not a hater ala Albert Goldman's 'Lennon' book. **Sombre MC5, Sonically speaking emoji** Those of us who saw the MC5 in their prime remember that force of rock n roll energy on stage, **Book MC5, Sonically speaking emoji** Callwood captures that amazing time period in Detroit right down to the muscle cars parked on people's lawns outside the Grande Ballroom. **MC5, Sonically speaking at home** Kick Out The Jams indeed! 224 pages Man! Brett knows how to weave a fantastic tale, **Book MC5, Sonically speaking pdf** Lotsa typical rock'n'roll hijinks and some info I've never heard before, **Book MC5, Sonically speaking pdf** 224 pages First I do want to sight the few flaws I found with this book, **Sombre MC5, Sonically speaking spanish** For one I'd have liked pictures especially from the original MC5. **Book MC5, Sonically speaking pdf** Secondly the drug use that is an important part of the history of both the band and the era in which they came to be was almost not covered in this book: **MC5, Sonically Speaking sombrero** In my opinion the author may have pulled back on some of the uglier history out of his friendship with the surviving band members. **Book MC5, Sonically speaking skills** And finally this book contained numerous typos especially in later chapters that really should have been caught by the publisher. **Book MC5, Sonically speaking rock** That said the same closeness mentioned above can really be felt in the passion that author brings to his subject, **MC5, Sonically Speaking epub file** But there was a strong movement there socially and musically that needs to be recognized, **Sombre MC5, Sonically speaking rock** The influence that the MC5 had on music may not be well known to the audience but to the musicians that came after it cannot be downplayed. **Sombre MC5, Sonically speaking rock** For anyone interested in the history of the sixties Detroit or rock and roll I would strongly suggest this book. Well worth a read though. You will not be disappointed. Cheers to you Brett. The pleasure is all mine. Great job. 224 pages

\$9. Brett dug deep and for that I'll be a lifelong fan. Thanks! 224 pages This was an easy read. Just seemed to lack a bit of depth. And here is the strength of this book. 224 pages.
