

Kiss the Sky (Calloway Sisters #1) By Krista Ritchie 5 } Thrive | {#3} Addicted After AllPHASE 4 (Rose and Connor) | (Daisy & Ryke):{spin-off} Fuel the Fire | {spin-off} Long Way Down English "Kiss the sky with me.

"and don't ever come down. They just need each other!It took me a while to set and write this review because my feelings and thoughts were all over the place!! To say I was obsessed would be an understatement! Im afraid my thoughts are too chaotic to be put into a review.

And a freakin ice queen. The confidence.

Who wants sexy talk with grammar errors?The general feeling about this book is that the authors have no idea how smart people reacts and so they invented. Now I admit that I usually sort of like that trope but what makes no sense is introducing it after them being together for a year and it was clear as the day that he loved her since he first appeared. I'm so mad about it but that is my personal taste I'm against reality shows in general and the whole idea of all of them willingly putting all of their problems at disposal of the public is simply ridiculous. She says dumb things all the times she cries she makes a fool of herself she can't do anything at all everyone tells her what to do she can't remember to eat or to shower and people don't trust her to remember her pills. Just no ok? This book delivers the idea that if you are powerful and confident woman deep down all you want is bow to your man at least in the bedroom and let him tell you what to do. You have no idea how angry I get every time that authors make me read about strong female characters with dreams and education be happy to renounce all of what they have worked so hard for just to stay home with the children sot hat the male could follow HIS dreams. There is nothing wrong with staying home or opening a shop (of course) but it's very wrong the message it sends to young girls about getting a higher education and having aspirations is only useful to snare a rich husband. Have you noticed how while Connor is being groomed to become he heir to his mother's company none of the sisters is involved in their father business in any way? You are about to inherit one day one of the greatest companies in the world and not one of you has been involved in the business? Really?IT's not ok and it's not just a book. These books are written for women can we please stop being misogynist? Would have really lessen the enjoyment of this book having her get what she wanted?I'm sick and tired of reading of wasted potential. The man worships her!! Even if he can't say the freakin words you can still see that he's obsessed!Rose is probably my favorite Calloway sister! She's ambitious independent man hater whether I allow myself to love her or not. In the first three books of this series we were introduced to Lily & Lo as the main couple but also got to know Ryke & Daisy and Connor & Rose as side characters and in Kiss The Sky the spotlight was turned onto Connor and Rose. Kiss The Sky was easily one of my most highly anticipated book releases and it blew me away!!! In the aftermath of the scandal that went public at the end of last book Rose needed to find a way to paint her family in a better light or risk losing her business Calloway Couture and everything that she'd worked for. Rose was a genius a strong confident woman in charge of her world but she was also a virgin in completely over her head because in this one respect Connor had a definite upper hand. And ho-ly HOTNESS guys!! I have to say that while I didn't see it coming in the previous books there was a kinky twist to Connor that just fit his personality so perfectly and had me fanning myself for pages

on end. In this book they had so much to deal with -- their relationship Lily & Lo's relationship (and the aftermath of the events of the first books) how her business was doing etc -- all of this on it's own would have been a lot of it's own but add in a reality show to the mix -- where every single moment of their lives was caught on film and broadcasted to the world by a producer whose apparent life's mission was just to fuck with them -- and you have a situation brimming with tension angst and heightened emotion. The whole story was built on this complex network of all the entwined relationships -- some were new some were built over years some were bonded by blood and others were bonded by love. ☐ The first three books (Addicted To You Ricochet Addicted For Now) complete one story arc (Lily & Lo's) so they have their own happy & resolved ending after Addicted For Now. ☐ Then this book (Kiss The Sky) continues that storyline but from a different perspective (Rose & Connors) and while it focuses on their story it also continues the journey of all the main characters that we've been introduced to. ***** For more of my reviews book news and updates:☐ Main blog: Aestas Book Blog☐ Facebook Blog Page☐ Twitter English

This book was 300 pages too long. With the sum total of the characters' net worth they could have bought their own production company which begs the question of why they allowed- creepy- Scott to have any sort of leverage over them. Because:1) Like I said I am WAY late in reading this series2) There are WAY better - and more eloquent - reviews out there than anything I could spew3) No one cares anyway. In fact that's one of the things I think I dug the most about this book - aside from their constant bantering and push/pull - the fact that they were together - AS A COUPLE - for the entirety of the book. This series is original the romances are messy and perfect- I'm pretty sure this is turning into my new favorite NA series because I seriously love everything about these books! Virgin. I'm jumping into Hothouse Flower next and I can't wait to get more of Daisy and Ryke's story and more of my favorite couple- Lily and Lo <3 English 4 stars you're telling me that Mr. Richard Connor Cobalt an alleged asexual dude who was like a sponge and wouldn't notice if you hit on him is actually what Christian Grey thinks he is but could never be???biggest plot twist of 2020. even though i've read more than half of the addicted series i still felt like Rose and Connor weren't a couple there?? if that makes sense? i don't know i guess they weren't affectionate and all that and Rose kinda seemed ehh towards Connor. why? because it's always the innocent ones i swear!! ☐ ROMANCE ☐honestly if you're boyfriend doesn't play fuck marry kill with you banter in french quoting jane eyre seduce you through Shakespeare will get high with you and give up his dream because he'd rather have you in his life than be a CEO of his family's company. ok so it's known that Connor doesn't love anyone because he thinks love is relative whatever that means so even after they've been dating for a year he hasn't said i love you to Rose but you know what? i'm okay with that (kinda?) because it was satisfying and sweet when he finally said it. also i just wish they weren't a couple and this book starts off with them being enemies and THEN they become a couple because enemies to friends to mutual pining to lovers duh and i love reading good developments. AND its weird reading this in order even though the books are probably published differently but there's some inconsistencies that bug me like they're doing a drinking game in front of Lo and they NEVER do that before because duh recovering alcoholic and then apparently now Lo and Lily are having sex all the time when the book before this (Addicted for Now) they barely had sex in 1 week. but now

they cant seem to stop touching each other?? wut?? and Rose hated her mother and even screamed at her and the mom even slapped Rose but suddenly she loves and respects her mother now?? wut?? OTHER THOUGHTS — Connor and Ryke hating each other? yesss love it when my boyfriends fight. can you read this without reading Addicted?? ehheh to be honest if you're like me and wanna know everything then i suggest reading the order it's suggested on the website but if you're lazy (also like me) i guess you can just read this series?? man i don't know: When I looked the book up and saw it was about a reality TV show: 6 people + 6 months + 3 cameramen + 1 reality show = infinite drama, The only thing standing in my way was that I needed to read the other three books in the series before I could read this one: I'm so glad I took that journey because this book was so worth it. My favorite quote comes from Rose when she is thinking about her time spent on the reality tv show. Or a Shakespearian comedy - it's going to end with a wedding after all: Rose's life is so dramatic that her use of that metaphor seemed very fitting:

*****Addicted series is interconnected with two spin-offs: Each phase is a complete story line with a satisfying enough conclusion: Recommended reading order:PHASE 1 (Lily & Lo): {#1} Addicted to You | {#1: 5} Ricochet | {#2} Addicted for NowPHASE 2 (Rose and Connor) | (Daisy & Ryke):{spin-off} Kiss the Sky | {spin-off} Hothouse Flower PHASE 3 (Lily & Lo):{#2. "COULD YOU BELIEVE THAT THIS IS A 450 PAGES BOOK WITH NO SINGLE MISCOMMUNICATION OR A MISUNDERSTANDING SCENE???? This is just how great and secure their romance and relationship was: They were together for the whole book and there was not a single boring moment: They don't need the drama or the forced third act conflict, But her stone cold heart melts for only one man and for her sisters as well, She's amazing and I freakin admire her! "You're not a pit stop: How they stay still with their backs straight ready to face anything together. I loved how they battle each other and WITH each other at the same time, I loved how they both think that they're way too smart for any other human being (which I'm pretty sure is true) That nothing could faze them, "But Rose is the epicenter of my world.

Kill for entertainment. How they could be weird and hard to understand for other but never with each other: The pinning??You could never imagine the power of these two!!!! These two took [power couple] to a whole new level! Their romance were everything: How they're so freakin EQUAL!! Nobody is more important or has more power in the relationship, They're freakin soulmates! They're so equal and it was so fascinating to watch. English THIS BOOK IS PHENOMENAL!!!It resurrected the series for me especially cause I wasn't a huge fan of the first 3 books. Instead it was one of the worst NA that I ever read(and for those who know what I've read this is a big statement). So Rose and Connor my most liked characters of this serie what could possible go wrong?Everything: This book seemed to take all my most hated tropes mixed them together and adding a little something to make me hate it even more. Let's start with the easy shall we?-It seems that smart people talk between themselves in french because it's sexier: -The: I can't love anyone because I was raised like that trope. What was the need to introduce that trope? You can't introduce that in the third book!-The reality show: I already said that what the authors are doing with her can be called bullying (yes I know that she is a fictional character). She is written as a little dumb animal and everyone treats her as such, It's painful to read! I'm not even annoyed at her I'm annoyed at the

authors! Just give her something she is good at, Please? It's your character not she is your protagonist! Can you make a human being out of her?-The sex, Connor goes all Christian Gray and have Rose wear a diamond collar and she goes all submissive. It feels completely OOC! I makes the whole relationship completely unbalanced and there was no hint of Rose's tendencies in the previous books, I also hated the fact that of course he has to be more successful than her leading an empire while she opens a shop: A shop! Really? That's just perfect and empowering! Having Rose open a shop to be able to stay near her children in the future (this is not said but is strongly implied), Can we please root for each other? A woman CAN be successful and happy and loved without having 8 kids you know, English Re-read on 4/20/2022 Listening Length: 14 hours 07 minutes,

♥ _____ **5 I'M ADDICTED stars** KISS THE SKY is the whole reason I started reading this series. I was playing 'guess that book' game with some friends and Bella wrote: ♦ She's a 23 year old virgin. She is super smart comes from a wealthy family and has her own fashion line, ♦ He's 24 smart cocky alpha" Connor whispers a beautiful smile pulling his lips but I'll try, Connor is an enigma! You can't really fit him into one word: He's many different things mixed together and I don't think I've ever met his character before. How he gave up on sth he wanted but never needed for her. How they play random fuck marry the arrogance the banter the chemistry HOLY CRAP every page was A1 from the start. The ending KILLED MEEEEEE I was so happy ☐☐☐ English *** FULL REVIEW NOW POSTED - SPOILER FREE *** You're not a pit stop, There's no one after you... I want you for eternity not for a brief moment in time, This is one of the most addictive series I have EVER read!! And it just keeps on getting better and better. The Addicted series is without a doubt one of THE best New Adult romance series out there: It has everything in spades -- fantastic writing an original plot line and characters you can't help but fall in love with: It took me a long time to be able to process my thoughts on this book into actual words, For the first several hours after reading the only thing running through my mind was along the lines of: but clearly I needed to come up with something better than that so here goes: Virgin. I'd been looking forward to their story ever since I first met them. So she decided to sign her and her five friends up to star in a reality TV show, This meant that Lily Lo Daisy Ryke and her and Connor would be living together and filmed for 6 months by three cameramen who followed them around day and night: 6 people + 6 months + 3 cameramen + 1 reality show = infinite drama, While all six friends featured heavily in this story the main focus of this book was on Rose and Connor: We saw what happened in their past that shaped them into the people they were now we saw what drove them and what scared them and what they wanted most: Honestly it was absolutely fascinating to see the world through their perspective especially the way they saw each other: She was a complicated equation that didn't need to be solved: could only see as much of him as he chose to show to the world, Despite caring deeply for her he found it hard to express his true feelings in so many words: It was so fun to see them verbally spar back and forth, He wears confidence like his most expensive suit with style and dignity and so much charm. I immediately want to combat him to match him smile for smile grin for grin word for word. Connor was the only guy who'd ever been able to truly handle Rose without either getting overruled or turned away. But here was the twist to their relationship -- they were equals on every level except sex. Luckily though being the amazing person that he was he never once pushed her beyond her comfort zone, I loved the way he waited for her and was endlessly patient, He knew all along what she wanted but was willing to wait for her to realize it herself: You're safe with me you know that Rose?... I won't ever hurt you. I think we both know there's only one dominant here. Oh yeahhh!!! :D But if anything can best describe Connor I think it's this one quote: My power is in my confidence: Their belief that it's something more - that it's something greater - is what makes the effect so strong. Overall this series truly has one of THE best ensemble casts I've ever read, The character dynamics are just GOLD and the dialogue is fantastic: There is not a single wasted word and I absolutely loved it, As she rests on my lap something strong grips my heart. She consumes my body and mind in ways that I can't articulate: Everything was so multi-layered and there were so many stories happening at once that were all connected all linked, But just as with the first books in the series I have to applaud the authors because never once did I feel like anything went overboard,

Every single event every piece of drama made perfect sense for the story. The entire story was well paced and meticulously planned out: I love getting lost in these characters' world and I absolutely love each one of these main characters: I love how despite having their misunderstanding and disagreements within each other they are always united against an outside threat, These five people mean more to me than words can express, Some lines were so hit me so strongly that out of nowhere I'd just find tears running down my face, We'd be the walls that shield these terrible events from them. We can endure the pain for however long they need to heal, Without a doubt this is one of the most addictive series I have ever read, I loved every single word and read this book as slowly as I could trying to make the story last as long as possible. The Addicted series truly stands out in the New Adult romance world. This is one of those series that started out strong and just keeps getting stronger, There is nothing else even remotely close to this out there. Rating: 5 stars!!!***

TIMELINE EXPLANATION & READING ORDER ***Now regarding the reason why I think these book should be read in order: A huge part of why I am so in love with and so addicted to this series is because I know these characters: I've been through their ups and downs I've seen their struggles and triumphs and so each new development in their story has a lot of meaning to me, Everything carries more weight because I know what these guys have been through to get where they are: In my opinion these characters deserve to have their story appreciated to the max and that will come with reading the books in order, It's written in such a way that allows that and at the end of the day it's really up to you. The Addicted series has a core ensemble cast of 3 guys and 3 girls: Lily & Lo Rose & Connor and Ryke & Daisy (though their relationship is not yet official), □ The next book (Hothouse Flower) will be the same deal but it'll focus on a different couple (Ryke & Daisy), □ Then the last two books (Thrive & Addicted After All) will go back to focusing on Lily & Lo and will have the big series finale ending, It is perfectly safe to jump in and start reading this series now. No cliffhangers where the story is at now! And - please please please start reading these books guys: They are just wonderful!!! :D My review of Book #1 □ <http://bit.ly/1fIPBas> All promo images were designed by the authors Krista & Becca Ritchie: Ivy league educated characters who all need some native intelligence. Rose and Connor supposedly are tough when in reality they're simply TSTL, 5 Stars First of all let me just tell you how COMPLETELY excited and relieved I am to have loved a book that most of my friends loved and 5-starred, Second of all I am way late to the Calloway party and boy was I missing out, This is my first read of the series and it will definitely not be my last. I'm not sure I will dip my toe into the Addicted series though: And I have enough of my own addictions to deal with as it is, Just kidding I don't suffer from all those addictions: And I totally shouldn't make a joke of that because - HELLO! - Totally not funny. *** But then? I realized that holy shite I am absolutely this girl's NUMBER ONE FAN WHORE: I mean what's not to love? HA! Oh man how could I NOT bow down to the brilliant bitchy sarcasm that was Rose? Ahhhhh warm and fuzzy warmth and fuzz, How you fill my soulless heart with your filter-less hostility and endless need to sanitize every surface. And then you put her together with Connor? He of sexy the lap dance and the Prince of Calm Practicality? Be still my unemotional socially offensive heart, In fact fuck it - 5 STARS - you unreasonably businesslike duo - because I HEART you, The vast majority of our romance novels are about the main protagonists and their journey to GET together or get BACK together: But here we get to experience them being together for the whole book - which I just LOVED: Because isn't that the whole point of romance? Reading about them together? In a relationship? Well it is for me. I also liked loved ADORED how all the characters in the book so fiercely protected each other: And if those two don't end up together? I will CUT a bitch. XXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXI've been meaning to try this series for a while now: So let's take a peak shall we? English I mean— wtf kind of chemicals were put in this book: Rose & Connor are the most interesting sophisticated and intelligent people I have ever read about. and the SPICY SCENES?? kill me I wasn't FULLY READY for the man that is Connor MFFFF Cobalt, And the dynamic of having a reality show for the core six? genius: The ending destroyed me in the BEST MOST AMAZING way possible and the epilogue???? wow: Overall Connor Cobalt & Rose Calloway can both get into a truck and run me over repeatedly and I would lay there and beg them to do it again: □□□□□□□□ English 5 stars! Kiss the Sky was such

a fun book to read. It had a great story line and was one of the most entertaining stories I've read lately, Krista & Becca Ritchie have the perfect amount of humor emotion steam and wit in their books: Rose Calloway is the perfect older sister of Lily and Daisy but lately things for her have not been so perfect, After the negative attention from her sister's sex addiction her clothing line has taken a hit, So has her father's business as well as the family's reputation. Rose has found a way to fix all that or at least she thinks it will. All six of them under one roof... what could go wrong? Rose is the opposite of her sister Lily in many ways, She has been dating her intellectual counterpart for a year now: These qualities make him different than the other guys and they're endearing to readers: Connor is nothing like I thought he would be and I mean that in the best way possible: I never thought Connor would be so funny and sinful under his exterior and I never imagined Rose would actually be likable, It's safe to say I was pleasantly surprised with these characters. They cared for each other deeply put each other first and had incredible chemistry, And even though things in the show threaten their relationship they stand strong and they stand together. The only thing about having everything is that you can lose it all. The writing is amazing and makes it so easy to fly through them. I've listened to the first 4 on audio and the narration is wonderful. The voices that portray all these characters fit so well and show the perfect amount of emotion for the story: Connor and Rose's story exceeded my expectations and they were already high: imma show you guys a little preview as to why i am shook: You may compliment my cock you may beg and you may politely ask for more. I don't want to hear anything else and if I do I'll stuff your mouth with your panties so you can't speak, i already have 1984398+ book boyfriends i can't handle more [] and let's not forget the fact that he also: *sigh* alexa play E-GIRLS ARE RUINING MY LIFE! by CORPSEguys you don't know how shook i was i mean this dude had me blushing and giggling- BLUSHING AND GIGGLING PEOPLE. all they did was argue Rose would glare at him and Connor would have that you're so cute face. [] plot↳ so this book is about the Calloway sisters + Lo Ryke and Connor being in a reality show to revive their image after Lily's sex addiction was leaked: just like other books from the Addicted series this is mostly character-based rather than plot-driven. there's some drama with Daisy and her boyfriend Julian this Scott dude (producer of the show) etc. [] CHARACTERS []— Connor Cobalt (H) didn't i say i was done simping? yeah that's a lie: ok so there's two sides when it comes to this dude: here's the [] side:↳ You're not a pit stop: I want you for eternity not for a brief moment in time, and then there's this [] side:↳ It's time for you to shut the fuck up and put my cock back in your mouth: is it the black hair pale skin blue/brown eyes thing? maybe, but it's also the whole being genius cultured out of my league bougee vibes that these characters have, they are all so out of my league it's not even funny, She was a complicated equation that didn't need to be solved she's the kind of character where i'm like i don't know if i should fear her or WANT to be her : she's also a genius she's stylish and trendy af AND she created her own business when she was 12-15 (ahh sorry i can't remember the age)?? goals. ugh i love hershe's definitely the mom of the group and not gonna lie her being the kinkiest out of all the sister didn't surprise me. is he really your boyfriend? im pretty sure these two are twin flames because they're so similar it's uncanny. i guess it was also satisfying when they FINALLY fucking did it because yes they've been dating for a year but they were never intimate: i like how Rose explored what she likes in bed and is open with anything, ahhh i don't know i guess i just like the trust these two have for one another in any sense, not gonna lie i wasn't 100% into the book until like 41% aka the scene where they all find out Connor doesn't love Rose - or is incapable of feeling love: now THAT is when i started getting hooked and i know this because i was procrastinating, y'all know how i determine when i'm hooked with a book? when i procrastinate, after that i was straight up procrastinating because it FINALLY started to get interesting. like i wanted to see the first time Rose said i love you and Connor was like uhhh i don't their first date their first kiss their first everything, so yeah that's why i was kind of bored in the beginning: now its Ryke's turn to be jealous karmas a bitch []— they did it more than 3x her first time? girl is her. okay?— when Connor thinks of everyone as his family AWWWWW: i guess if you're half lazy half fomo just skim the Addicted series to the RoseConnor and DaisyRyke scenes, anyways i went into this series wanting to read about Connor but NOW my most anticipated read is DaisyRyke's book, im

currently procrastinating so i guess im more hooked with their book than this one: Calloway Sisters series#1: kiss the sky → 4 stars#2: hothouse flower → 3: 5 stars#3: fuel the fire → tbr#4: long way down → tbr#5: some kind of perfect → tbr English Virgin: At twenty-three she's a Princeton graduate an Academic Bowl champion a fashion designer and the daughter of a Fortune 500 mogul. But with a sex addict as a sister and roommate nothing comes easy: After accepting help from a producer Rose agrees to have her life filmed for a reality television show. The Hollywood exec is her last chance to revive her struggling fashion line and boundaries begin to blur as she's forced to make nice with a man who always has his way. Twenty-four-year-old Connor Cobalt is a guy who bulldozes weak men, He's confident smart-as-hell and lives with his equally ambitious girlfriend Rose Calloway: Connor has to find a way to protect Rose without ruining the show: Or else the producer will get what Connor has always wanted—Rose's virginity, This New Adult Romance can be described as Friends meets The Real World. Expect fist fights drugs sex of varying degrees crude humor and competitive alpha males. ***Authors' Note*** Kiss the Sky is a spin-off of the Addicted series. If you'd like to read the Addicted series beforehand you should read them in order before starting Kiss the Sky or else the time jumps will be jarring[1]

Wealthy arrogant. Dominant. He doesn't believe in love. His first name and last name begin with the same letter. I knew this book was for me. I've been a Connor & Rose fan from the beginning. I love their intellectual banter that fuels their relationship. I am a Greek tragedy. The authors have written the books in 4 "phases". You're my finish line. There's no one after you." I truly loved these two together. How they compromise for each other. How they freakin believe in each other. And how he wanted he to experience everything with him. I loved how they radiate power. Rose and Connor are AMAZING. They love superheroes flawed characters and soul mate love. kbritchie.kbritchie. They love superheroes flawed characters and soul mate love. kbritchie.kbritchie. {site_link} No no no and no. But you know what is not sexy at all? Grammar errors. Like in a fantasy book. Don't even let me start on that. -Lily. Oh oh. Here it comes the reason of the one star. No just no. He is the one who wanted children make HIM stay home. Let's just stop with the subliminal messages. Still as good as the first time I read it. He's the river that idly passes between mountains. I'm the volcano that destroys a village. Nothing shakes him. He's confident. He's always right. He's unpredictable. He's arrogant. I love how he views the world. How he carries himself around. And he freakin loves Rose." It was all their biting comments. How they banter in French. You're my finish line. WOW. WOW. W-O-W. Krista & Becca Ritchie have outdone themselves. Every single word was brilliant. READ THESE BOOKS GUYS!!!!!! I'll be honest. ZOMG THESE BOOKS ARE FUCKING AMAZING YOU ALL HAVE TO READ THEM NOWWWWWW!!! . Sex addict. Daredevil. Alcoholic. Smartass. Jackass. I've done the math. We saw everything through their eyes. Connor understood Rose in a way that no one else did. He saw through her walls and right into her heart. Rose Calloway was different. She was fashionable. But not a sorority girl. She was a genius on paper. But not a team player. She was quick to loathe others. But not against loving them. Rose saw the real him too but. But he and Rose somehow just worked perfectly together. They were competitive but in the best way. They were such a unique pair. He was neither stronger nor weaker than her. He was her perfect match. I'm not the hero. I'm the king to Rose's queen. It made me melt. It's that simple. They need me to be their sturdy unbending fortress. So I am here. Every little interaction between the cast just shone. The WRITING was fantastic. I adore these authors' style. It's smart snappy and just draws you IN. I swear half my book is highlighted. I've never been so possessed by another person before. It was fascinating. Exciting. Addicting. Compelling. It was romantic. Steamy. Emotional. Beautiful. It fit. No eye-rolling or Kindle-throwing. I love their insecurities flaws and strengths. They support each other have each others' back. They protect each other. I've never once felt like I had a real family. But with them - I know I do. I didn't want it to end. Some books are worth losing sleep over. This is one of those. Krista and Becca Ritchie keep raising the bar. It's truly one-of-a-kind. THIS is a series to watch for. That being said you can start with this book. If it helps to know. It has it's own HEA. You will not be left hanging! I promise. Cross my

heart.ly/1aVSaNMMy review of Book #1.5 ☐ <http://bit.ly/1baSZSK>My review of Book #2 ☐ <http://bit.ly/1baSZSK>

Je suis desole ce livre est ridicule. English 4-4. Such has not been the typical case of late. It sounds tres depressing. Ahem moving along.I'm going to keep my thoughts on this brief. At first I wasn't sure I was gonna like this. Rose was quite the ice queen who reminded me of.well.a certain someone. But anylong-winded I just loved that aspect of the book. ESPECIALLY Ryke and Daisy.everyone OMG 5-stars the ever livin' shit out of it. Plus it's FREE right now. Krista & Becca Ritchie. explain yourselves. This entire book was PHENOMENAL. A true match a full on power couple. I also adored the bonus scenes at the end. Sex addict. Daredevil. Alcoholic. Smartass ... Jackass. Her five friends are about to be filmed. Reality TV be prepared. So she's signed the gang up for a reality show. One way in particular- she's a virgin. Connor Colbolt is a patient man. He's smart ambitious and confident to the extreme. Connor was fantastic and Rose was someone relatable. I loved this couple. I had no one before Rose. No true friends. No family not really.Now I have her. I have people I care about. People that I want to protect.Now I have everything. I am crazy addicted to these books. Once I start one I cannot stop listening. I feel like these characters are my friends my family. It's so easy to become attached to them all.BRO- chill. likes to. cHoKe. i never do that. ever. what have i become?ok ok enough simping for today. sorry. You're my finish line. There's no one after you.that scene? rent free guys- RENT FREE.so he's kinda a mix of Kaz Brekker and Dorian Havillard. — Rose Calloway (h) She was a genius on paper. But not a team player. She was quick to loathe others. But not against loving.☐ DISLIKES?? ☐OKAY ok hold your horses. this is more of a me thing than anything else. first 40 ish%? i was studying.— love the drama between Daisy Ryke and Julian. you know.— Rose reminds me of my mother oh god.* * *now the question you've all been waiting for. im reading it right now and. well. Sex addict. Daredevil. Alcoholic. Smartass ... Jackass. Her five friends are about to be filmed. Reality TV be prepared. Rose Calloway thought she had everything under control. Definitely for mature readers audiences only. Kiss the Sky (Calloway Sisters #1).
