

Her Hideous Saviour By XxSweetlyYoursxX Would love to read it again to see if my memory is correct! Not that this is a Beauty & The Beast story but I found it really unique that the male love interest wasn't traditionally handsome. Sabin felt so fragile utterly weak as a newborn babe waiting in near pieces as Luna's big silver orbs danced secretively over him; concealing her thoughts from him in her usually expressive eyes.

Can't tell you how many times I read this on Wattpad before it got taken off: Her Hideous Saviour I haven't read this in a really long time and it's been removed from wattpad: From what I remember it's a really nice storyline and good writing, Her Hideous Saviour \*Please note that this story contains mistakes in it, As the title states I am Editing/Revising it and therefore do not need any comments on the spelling grammar or anything of the likes. I don't mean to sound rude but believe me I know the mistakes and will correct them when I see fit: \* Once he felt his wolf spirit settle within him he knew the change was complete. Sabin made a small sound caught between a whine and a huff. Sabin forced his body into stillness while his insides fidgeted violently: She took a tiny step towards him both warming and icing his chest with his conflicted emotions. I really miss it and hope to read it again one day. I remember so many cute scenes from this. It really was a good read. Thank you. Luna peeked over her shoulder at him timidly. Her Hideous Saviour
