

The Hidden Girl: A True Story of the Holocaust By Lola Rein Kaufman **Hidden girl book online** This is a great book for middle school children to learn more about what happened during WW2 and how some people were brave enough to help children survive during a tragic time in history. **Pdf hidden genius** Lola went through a TON for her age and one thing I did like was she showed you how to say certain letters sound in Polish for example she said the CZ makes a CH sound and the o in Kraków sound like u and the W sounds like a v. **Pdf hidden genius** And I do love that infamous phrase: you learn something new everyday (especially when you read books! ;)) So I did enjoy this book and did break my heart and makes me so glad I didn't have to live during those times and also have privileges in a country when there's those in others countries who don't have those freedom privileges like we do. **Hidden girl photo** :) 9780545061179 The Hidden Girl is an autobiography written by a Lola Rein Kaufman.

Sad but it moved so quickly that it seems like it skipped a lot of the story and made it difficult for the reader to really connect with the teller's story and her world as it changed. **Book the hidden garden** It is clearly a child's book and why it was in the adult section under war with a YA label on it I don't understand this is a book suitably written for a 4th grader. **The hidden girls** Many people have read about Anne Frank which is a popular read however so this is another perfect companion piece for students who are in grade 4+ to learn more about the dangers the Jewish people endured. **The hidden girl and other stories pdf** I vaguely remember reading about her before; or rather about a girl who survived the Holocaust and had one single possession left that she managed to keep all those years--- a dress given by her mother. **Hidden girl photo** At first I wish the book was longer but then I thought Lola Rein was only 5 years old when all of it happened and so I understood why the book I picked had only a hundred pages--so just the right exact amount of pages. **Pdf hidden genius** 9780545061179 3 1/2 stars in a good way considering how it's a REALLY short book and easy read I'm a sucker for WWII stories whether it be adult or children book versions (like this one) of these Holocaust survivors a Jewish Holocaust survivor who had to hide from the Nazis in a small hole dug in a barn for nine months. Meh. It was ok not what I expected. It is also very dead panned and unemotional. 9780545061179 Its been forever since ive read this. But i had randomly thought of it today. I finished in half an hour. I thoroughly enjoyed reading it. Of course it was a heartbreaking book. Lola was only 5 years old when the war starts. She grew up in Poland. As a result the Holocaust was unprecedented in its cruelty. That and hope are all she has to hold onto. As with many books of this genre. Lola has lost everything - her home and her family. Still very worth reading. C. 9780545061179 I read this today in one sitting. And I cried heavy tears. This story connected with my heart and my heritage. 9780545061179 A very quick read.
